The diagram illustrates a vertical dam wall. On the left, a blue wavy line represents the water level upstream. A grey vertical cylinder represents the dam wall. Two red brackets are shown on the upstream side of the wall, indicating the direction of water flow towards the wall. The text 'ແມ່ນຳໃຫຍ່' (Water pressure) is written above the upstream water level, and 'ສັງເກດວະນາ' (Water pressure) is written below the dam wall, pointing to the right.
